PROFESSIONAL SUMMARY

Computer Science student at BMCC with a 3.5 GPA, focused on backend development. Built a Go CLI tool integrating a live REST API to compute real-time pricing data. Experienced with Python, Go, C++, SQL, HTTP, and REST APIs.

PROJECTS

Necklace-to-Bond <https://github.com/Thant713/necklace-to-bond> 2026
Go, REST API, JSON

- Built a Go CLI tool that calculates Grand Exchange crafting profit using live OSRS market prices
- Fetches live prices for all items in a single request from the OSRS Wiki real-time API
- Computes ingredient costs and profit per necklace after the 2% Grand Exchange tax, capped at 5M GP
- Outputs results as a formatted terminal table for quick readability

SKILLS

Languages: Go, Python, C++, SQL, HTML/CSS

Technologies: REST APIs, HTTP

Developer Tools: Git, GitHub, Linux, Command Line

EDUCATION

Borough of Manhattan Community College New York, NY
Associate of Science in Computer Science. GPA: 3.5. Dec. 2027

Touro University Moscow, Russia
Bachelor of Science in Management. Sep. 2021

EXPERIENCE

Coordinator (Building C) Nov. 2023 – Feb. 2024
S.D.E.C International School Yangon, Myanmar
